Art. 6 – Test and evaluation criteria

The Admission test consists in sixty (60) questions with five possible answers. The candidate must choose one correct answer among options that contain wrong conclusions, arbitrary or improbable answers. The

subjects are general culture and logical reasoning; biology; chemistry; physics and mathematics.

On the basis of the programs in **Annex "A"**, which is an integral part of this call, there will be: two (2) questions on general culture; twenty (20) questions on logical reasoning, eighteen (18) questions on biology, twelve (12) questions on chemistry and eight (8) questions in physics and mathematics.

On the basis of the number of available places in the Single-cycle 6-year Master degree, EU candidates and Non-EU candidates under art 39, paragraph 5, D.l.gs No 286/1998 are admitted. Candidates with residence in foreign countries, (see art 8 in this call), have a number of reserved places in the ranking list. These categories all have the requirements to register to the above course, if they receive a minimum score on the entry test of **twenty (20) points**. The candidates who do not reach this score are not inserted in the ranking list. Left over places in the category of Non-EU citizens residing in foreign countries cannot be used for EU citizens and Non EU citizens under art 39, paragraph 5, D.l.gs No 286/1998.

The maximum score for the test is **90 points** and the points are calculated according to the following criteria:

- **1,5 points** for every correct answer;
- **minus 0,4 points** for every wrong answer;
- **0 points** for no answer.

On the basis of the score of the candidate calculated by Cambridge Assessment, Cineca redacts a national ranking list for EU citizens and Non EU citizens under art 39, paragraph 5, D.l.gs No 286/1998, according to the procedures described in art.8. The ranking list for foreign citizens residing in foreign countries is defined in the single university.

The following criteria will apply in case of equal scores:

a) the candidate with a higher score in the following areas, in decreasing order, will prevail: logical reasoning, general culture, biology, chemistry, physics and mathematics;

b) the candidate who possesses language certifications under **annex 3**, at the term of registration and declared in the application form will prevail. The language certifications under this call are declared by the applicant under art. 46 del D.P.R. n. 445/2000. However, the Administrations involved in this procedure reserve the right to, at any time, verify the contents of the declarations made by the candidates, in accordance with governing legislation. In that case, the candidate will give all the necessary information to carry out the controls. If the candidate's declarations should prove false or untrue, being understood that the sanctions foreseen by the penalty code and in the special Laws (art. 75 e 76 DPR 445/2000) apply, the candidate will receive claims of compensation from the counterparts. The possible course registration will be declared void, recovery of possible paid out financial aid will be made and university taxes will be retained.

c) in further cases of equal scores, the younger candidate will prevail.

The ranking list is locked with a ministerial decree which must be issued before the last day of teaching activities of the first academic semester, so that the students can reach the obligatory minimum requirements for presence in their exam courses.

Available places on the day that the ranking list is closed, or places that become available are not reassigned.

The definition of eligible (*idoneo non vincitore*) in the ranking list only refers to the admission test in this single call: no rights can be transferred to admission to courses in subsequent years.

Art. 7 – The ranking list

At CINECA, the competent MIUR unit, authorizes CAMBRIDGE ASSESSMENT, having verified that the procedures in this call have been followed, to determine the score of each candidate. CAMBRIDGE ASSESSMENT determines the score of each candidate and transmits the results to CINECA using a dedicated website.

MIUR, through CINECA, respecting the norms on privacy, publishes the scores on the web site <http://accessoprogrammato.miur.it> in the number order of the identification codes on the stick labels. This information will be available on the site until the end of the procedures.

Art. 8 – Publication of ranking list and formal requirements

The score is determined by Cambridge Assessment according to the procedures in art. 6 of this call. On **28 September 2016**, CINECA, on behalf of MIUR, respecting the norms on privacy, will publish the scores in the number order of the identification codes on the stick labels, on the web site <http://accessoprogrammato.miur.it>. This information will be available on the site until the end of the procedures.

1. From the day after the publication of the test scores, and within the time limit of five days, the person Responsible for the procedures at the universities will send the personal information of the candidates and a scanned PDF version of the personal information templates to CINECA. This material will be transmitted on the dedicated website designed by CINECA as the only communication channel. Analytical minutes on these operations shall be redacted by the Universities and sent to MIUR on the dedicated web site.

2. On **6 October 2016** the candidates will be able to view their own tests, scores, and personal information sheets on their personal page in the UNIVERSITALY portal.

3. On **11 October 2016** the candidates will be able to view the national ranking list with names in the reserved area in UNIVERSITALY.

4. Every time there are changes in the ranking list, the candidate that:

a) fits into the available places according to the First Useful Preference will be marked **ASSEGNATO (assigned place)** must enroll for the course in the assigned university within the terms in art.9. If the candidate does not enroll within the terms, he/she loses his place. There are no valid reasons for delays;

b) does not fit into the available places according to the First Useful Preference will be marked **PRENOTATO (place reserved)** on a lower preference. In this case the candidate may either enroll in that university in accordance with the rules in art. 9 of this call, or wait for changes in the ranking list due to the enrollment of preceding students, which may cause slides in the list and possible available places closer to the candidate's First preferences.

If the candidate marked **PRENOTATO** decides to enroll, all the other options will be automatically cancelled.

5. On **11 October 2016**, in relation to the ranking list and to the number of available places at the single universities, the names of the candidates who are **ASSEGNATI** and **PRENOTATI** according to the First Preference rule for the single course at the single university will be published in the reserved area and each university will receive a list of these candidates.

6. The ranking list and the improvement of positions works as follows:

- a) on 11 October 2016 the personal ranking list is published in the reserved area of the dedicated website, with information for each candidate on the score, the position in the list and the university to which he/she is assigned. This is in relation to all the preceding candidates on the list and to the preferred university, and it they are in a reserved position "*prenotati*" or still waiting "*in attesa*";
- b) the candidates marked **ASSEGNATI** must enroll immediately at the chosen university according to the procedures in art. 9 of this call.

The candidates marked **PRENOTATI** may enroll at the assigned university according to the procedures in art. 9 of this call.

In order to manage the national ranking list, the candidate marked **ASSEGNATI**, and the candidate marked **PRENOTATI that decide to make use of this opportunity must enroll within 4 (four) days**, including the date in which the ranking list changed excluding Saturdays, Sundays and holidays.

If the candidates marked **ASSEGNATI** do not enroll within the terms of **4 (four) days** their position is cancelled. The candidates marked **PRENOTATI** that do not enroll do not lose their position in the ranking list.

c) Within **5 days** of the terms under a), and before 12,00 o' clock of the fifth day after changes in the ranking list, excluding Saturdays, Sundays and holidays, all Universities must give notice of the names of the enrolled students to CINECA on the dedicated website.

d) within 5 days of the terms under a), and before 12:00 o' clock of the fifth day after changes in the ranking list, with the exclusion of Saturdays, Sundays and holidays, **all candidates with the exception of those who have enrolled, and those who have renounced, must confirm their interest** in the reserved area on the University website. If the candidate does not confirm his/her interest, he/she will lose the position in the national ranking list and will have no right whatsoever to enroll. There is no valid motivation or justification for not confirming interest on the website.

e) On 18 October 2016, having received all the notices under c), and in relation to the preferences and positions, CINECA will publish a new ranking list in which the positions of the candidates will have improved according to the procedures in b), c) and d).

f) Subsequent changes in the ranking list will follow the same procedure as the first one, indicated in b), c) and d). This sliding process will continue until the moment the ministry issues the decree that declares the end of the ranking procedures.

7. The Universities may enroll eligible candidates on the ranking list not only for the first year, exclusively if their credits are acknowledged and under the condition that there are documented available places in the university in the year the candidate asks to be enrolled and that the available places are in line with the number of places in the former programming years.

Just like students who abandon the courses after having enrolled make the positions in the ranking list slide, this benefits the students on the ranking list who have not yet enrolled only if the Universities give notice of this, and as long as there are available places in the university.

Other request of transfer or students who abandon the courses after all the available places have been filled do not affect the ranking list.

8. Enrollment in other years, after the University has recognized the credits can only be allowed in places that have become available because of students abandoning the courses or transfers and in relation to the number of available places defined in the annual programming. **Only the students under point 7 and 8 that are enrolled in the same 6-year single-cycle master degree course in another Italian, EU or Non-Eu University do not have to pass the entry exam.**
