Working activity

From 2010 daily surgical activity in General Surgery and Liver and Kidney transplantation, multi-organ recruitment (DBD and DCD), gastrointestinal and liver-biliary tract surgery; research activity in hepato-pancreato-biliary surgery, “recovery” of marginal livers with machine perfusion, immunosuppression after transplantation (in particular withdrawal of immunosuppression after liver transplantation). From September 2016 to November 2019 Dr Angelico has been working as transplant surgeon in a paediatric transplant center and she performs paediatric liver and kidney transplantation, paediatric hepatobiliary surgery and oncall for general surgery. Since December 2019 Dr Angelico performs daily activity in hepatobiliopancreatic surgery, liver and kidney transplantation, and is actively involved in the living-donor kidney transplantation program. She also performs oncall for emergency general surgery.

Medical licensure and certification

- European Board of Surgery (EUMS), Transplant Surgery (Liver transplantation and multi-organ retrieval) : October 2016
- General Surgery specialist (Tor Vergata University, Rome, Italy) : June 2016
- GMC registration 7478919 (UK) : July 2014
- State Medical Board (Rome, Italy) : March 2010

3. Multicenter international prospective study “The real-life machine perfusion experience in mid-volume liver transplant centres - An international survey”. Principal investigator (2022)
4. Prospective study “Metabolic syndrome in liver transplant recipients”. Principal investigator (2021-2022)

5. Prospective study “Screening of Fabry Syndrome in kidney transplantation”. Co-investigator (2021-2022)
6. Studio retrospettivo monocentrico “Enhanced Recovery After Surgery” (ERAS) in kidney transplantation”. Principal investigator (2021-2022)
7. Multicenter international prospective study “COVIDSurg3”. Local principal investigator (2022)
8. Multicenter international prospective study “CASCADE”. Co-investigator (2022)
9. Multicenter international prospective study “AMBROSE”. Local principal investigator (2022)
10. Multicenter international prospective study “AROMA”. Co-investigator (2022)
11. Multicenter international study “INDIVUMED” for the identification of tumoral biomarkers. Sub-investigator (2020-2022)
12. Multicenter international study “GlobalSurg-CovidSurg Week: Determining the optimal timing for surgery following SARS-CoV-2 infection”. Sub-investigator (2020)
13. Multicenter national study in collaboration with the National Transplant Center: “Analysis of the COVID-19 pandemic on solid organ transplantation in Italy”. Principal Investigator (2022)
14. Multicenter international study of the “Management of Gallstone disease during COVID-19 pandemic (MEGAVID) study”. Principal investigator (2020)
15. Multicenter national study for the National Transplant Center: “Intention-to-treat analysis of the national program of pediatric liver transplantation”. Principal Investigator (2019-2020)
16. International study group “EUROPEAN REFERENCE NETWORK TRANSPLANTCHILD”, on pediatric solid organ transplantation. Co-investigator (2017-2019)
17. International study group “GRAFT INJURY GROUP” on liver fibrosis after pediatric liver transplantation. Co-investigator (2018-2019)
18. Multicenter Italian Study: “The effects of the COVID-19 epidemic on transplantation activity in Italy”. Principal Investigator (2020)
19. Multicenter Italian study group SITO-AISF for the national guidelines in Liver transplantation: “Liver transplantation ISOSCORE 2.0 and oncological indication in liver transplantation working group”. Co-investigator (2018-2019)
20. “Liver fibrosis progression after paediatric liver transplantation”. Principal investigator (2018)
21. Multicenter European ELITA-ELTR study: “Outcomes of left split graft transplantation in Europe: report from the European Liver Transplant Registry (ELTR)”. Principal investigator (2017-2018)
22. Multicenter Italian study: “Analysis of outcome of split liver transplantation in Italy after the donor new allocation policy” Principal investigator. (2017-2018)
23. Multicenter European clinical trial “The arterial study network” in pancreatic cancer. Sub-investigator (2016-2017)
24. Multicenter Italian clinical trial “Immunosuppression weaning trial in liver transplantation. Identification of immune-tolerant patients”. Sub-investigator (2015-2016)
25. Multicenter European clinical trial “A Phase 3, open-label, multicenter, prospective, randomized study of the efficacy and safety of conversion from Prograf capsules twice daily to LCP_Tacro tablets once daily for the prevention of acute allograft rejection in stable kidney transplant patients”. Sub-Investigator (2013-2015)
26. Multicenter European prospective trial “Withdrawal of Immunosuppression after liver transplantation, immune-tolerance”. Sub-investigator (2010-2013)
27. Multicenter clinical trial “A multicenter, three arm, randomized, open label transplant recipients receiving an immunosuppressive regimen of Advagraf® (immediately or delayed post-transplant) and MMF with or without a monoclonal anti-IL2R antibody (Basiliximab)”. Sub-investigator (2013-2014)
