

Curriculum vitae

VITTORIO MANZARI

Born in Bari, 27/7/1953

Italian citizenship

Married, three children

Via di Frascati 221, 00040 Rocca di Papa

DEGREES

1977 - Medicine and Surgery degree, UCSC, Rome

1983 - Specialist in Microbiology

ACADEMIC QUALIFICATIONS

1978/79 - Graduated technician, Università di Roma La Sapienza

1979/83 - Assistant professor in Microbiology

1983/85 - Assistant professor in General Pathology

1985/86 - Associate professor of General Pathology, in Medicine

1986/90 - Associate Professor of General Pathology, in Medicine, Università di Roma Tor Vergata

1990/03 - Full professor of General Pathology, in Medicine

2003 to date - Professor of T.S. of Laboratory Medicine, in Medicine

INTERNATIONAL LABORATORIES ATTENDED

1974 - Laboratory of Molecular Biology, I.S.Re.C., Losanna

1975 - Department of Molecular Biology, Albert Einstein College, New York

1980/82 - LTCB, National Cancer Institute, Bethesda

MAIN LINES OF RESEARCH

Messenger RNA processing in eukaryotes

Search for the presence of reverse transcriptase in tissues from patients affected by Hodgkin's disease and leukemias

Molecular cloning and characterization of human T cell leukemia virus (HTLV I)

Epidemiology and molecular characterization of strains of the HTLV family

Search of new oncogenes, characterization of v-sis oncogene

Studies on growth factors and transforming genes in T-lymphocytes

Isolation and epidemiology of HIV, double infections HIV/HTLV

Association between nasopharyngeal carcinomas, lymphadenopathies and Epstein Barr virus

Angiogenesis and neoangiogenesis, their diagnostic and prognostic meaning in neoplastic pathologies, in atherosclerosis and in myocardial infarction

Genetic tumor markers and effect of drugs on tumor cells
