

PERSONAL INFORMATION

Maria Sole Chimenti

✉ maria.sole.chimenti@uniroma2.it; msolechimenti@hotmail.com

Sex Female | Date of birth 18/07/1978 | Nationality Italian

JOB POSITION

MD PhD M.Sc, Senior Lecturer in the Department of "Medicina dei Sistemi", Rheumatology, Allergology and Clinical Immunology at the University of Rome Tor Vergata
Specialization in Rheumatology
HCP (Health Care Provider) Representative for Rare diseases (ERN ReCONNET) - Fondazione Policlinico Tor Vergata
Visiting Professor at the Rheumatology Unit Université de Versailles Saint-Quentin-en-Yvelines

WORK EXPERIENCE

- from 2008- to present Senior Lecturer in the Department of "Medicina dei Sistemi", Rheumatology, Allergology and Clinical Immunology
Professor of Rheumatology at the course of Musculoskeletal System at the University of Rome "Tor Vergata".
Professor of Rheumatology at the Master of Science in Rehabilitation and at the Master of Physiotherapy, University of Rome "Tor Vergata".
Professor of Rheumatology at the University "Nostra Signora del Buon Consiglio", Tirana, Albania.
- September 2016 Master of Science on translational research in Rheumatology
University of Trieste, Italy
- November 2013 Obtained her PhD
at the University of Rome "Tor Vergata" in the Department of Molecular Biology, Prof. Gerry Melino
- From 2002 to 2006 Admitted to the specialty in Rheumatology, Department of Rheumatology, University of Rome "La Sapienza", Prof. Guido Valesini.
Resident in Rheumatology in the Department of "Terapia Medica Applicata, Divisione di Reumatologia" at the Umberto I Hospital, University of Rome "La Sapienza".
Clinical and Laboratory practice acquired in the field of rheumatological diseases.
Qualification as Specialist in Rheumatology, Department of Rheumatology, University of Rome "La Sapienza", Prof. Guido Valesini

EDUCATION AND TRAINING

- From November 2010 to present Member of a national board "SPIN", working on the study of Spondyloarthritis
- From November 2005 to May 2006 Clinical practice, as resident, at the Rheumatology Department at the "Hopital Ambroise-Paré", Boulogne, Paris, France (Prof. Jean-Marie Le Parc)
- From December 2004 to October 2005 Laboratory practice, as Post-Doc, at "Département d'Immunologie" de l'institut Cochin de l'INSERM U567, CNRS-UMR 8104, Université Paris V, working on the role of HLA-B27 in a rat model of Spondyloarthropathy (Prof. Maxime Breban)
- November 2002 Passed state board exams for M.D. at University of Rome "Tor Vergata"
- From September to October 2001 Clinical practice in LES, lupus pregnancy clinic and antiphospholipid syndrome as medical student in the Lupus Research Unit, St Thomas' Hospital, London (Prof. Graham Hughes)
- Sept-Oct 1999 Clinical practice as medical student in the adult division of Service de Médecine Interne, Groupe Hospitalier Pitié-Salpêtrière, Paris (Prof. Bertrand Wechsler)
- July 2002 Degree at University of Rome "La Sapienza" - Faculty of Medicine and Surgery; Experimental Thesis titled: "Anti-chromatin antibodies and clinical manifestations in Systemic Lupus Erythematosus: focus on lupus nephritis"
Graduating mark: 110/110 with honours
- From 1996 to 2002 Medical student at the University of Rome "La Sapienza"
- July 1996 Baccalauréat S graduated at Lycée Chateaubriand in Rome

MAJOR RESEARCH INTERESTS

Dr Chimenti has accumulated clinical experience in Internal Medicine, Immunology and Rheumatology.

The beginning of her clinical research career was focused on the study of the pathogenesis of autoimmune disease as SLE and APS. Subsequently, when she joined the “département d’Immunologie” de l’institut Cochin in Paris and the Rheumatology Department at the “Hopital Ambroise-Paré”, Boulogne, Paris, she focused her clinical research activity on the pathogenesis of Spondyloarthritis. During her post-Doctoral fellowship, she experiences laboratory technique as RT-PCR, immunohistochemistry, western and immunoblotting, cellular cultures, flowcytometry, ELISA, experiments on animal models and direct/indirect immunofluorescence.

During the last ten years, she participated at the evaluation of the safety and efficacy of treatments for psoriatic arthritis and on safety and efficacy of biological treatments in inflammatory arthritis. She also works in the field of autoimmune diseases, osteoarthritis, fibromyalgia and osteoporosis.

She is the coordinator of a combined Rheumatology and Dermatology out-patients Unit for the early diagnosis and treatment of psoriatic arthritis at the University of Rome “Tor Vergata” and of a combined Rheumatology and Gastroenterology out-patients Unit for the early diagnosis and treatment of enteropathic arthritis at the University of Rome Tor Vergata.

She is coordinator of the unit of Musculoskeletal ultrasonography at the University of Rome Tor Vergata.

The results of her clinical activity are also documented by several publications on peer reviewed journals.

Dr Chimenti is a teacher in EMC courses on Rheumatology and on Dermatology on the use of biologic drugs in the treatment of psoriatic arthritis and on the use of ultrasonography for psoriatic arthritis management.

Dr Chimenti is skilled in molecular and cellular biology and in clinical and therapeutical management of Spondyloarthritis.

Her interest is focused on these major topics:

- 1) Role of innate immunity in the pathogenesis of autoimmune diseases
- 2) Role of complement system in autoimmune diseases
- 3) Signalling of inflammatory cytokines in joint diseases
- 4) Diagnostic and therapeutic management of Psoriatic arthritis and Spondyloarthritis patients

Dr Chimenti is actively collaborating with several research groups in in Italy:

- national working group for early arthritis (PRP 2010-2015);
- national Editorial Board: "Use of anti-TNF in patients with AS, PsA, PsO and RA and type 2 diabetes" (2013-2014).

PERSONAL SKILLS

Mother tongue(s) Italian mother tongue

Other language(s)

Computer skills ▪ good command of Microsoft Office™ tools, word, excel, safari, explorer, power point, GraphPad-Prism.

Driving licence ▪ B

ADDITIONAL INFORMATION

SCIENTIFIC PRODUCTION

- Author and co-author of 165papers on peer-reviewed international journals
 Total Impact Factor: 620; Mean Impact Factor for publication: 3,78
 Hirsh-Index (H-index): 32;
 Total number of citations 3144;
- Author of 12 Papers in italian, books and books chapters
- Author and co-author of more than 80 national and international congress abstracts as posters or oral communications

MEMBERSHIPS

Founder and President of ReDO-Reumatologue DOnne, Italian association of women in rheumatologists, special commission of the Italian society of rheumatology.
 Member of the Italian Society of Rheumatology (SIR)
 Delegate for the Lazio Region for the Italian Society of Rheumatology (SIR)
 Member of the Gender Medicine Study Group of the Italian Society of Rheumatology
 Member of the UNIREUMA
 Member of the steering committee of the Società Italiana di Gastro-Reumatologia (SIGR)
 Member of the GRAPPA (Group for Research and Assessment of Psoriasis and Psoriatic Arthritis)
 Associate Member of the ASAS (Assessment of SpondyloArthritis international Society)

CLINICAL TRIALS

Co-Investigator or Principal Investigator to the following Clinical Trials:

-In 2003: Abalimumab in Rheumatoid Arthritis (Fase III). Abbot International. Sapienza University of Rome.

-November 2012-dicembre 2013: Protocol n. IMMI 1-0138-ALIGN (Fase IV)-Abbvie. University of Rome Tor Vergata.

- January 2014-July 2015: Protocol n. MK-2155-194-QUO VADIS (Fase IV): A Prospective Observational Study to Evaluate the Relationship Between Disease State and Change in Quality of Life in Ankylosing Spondylitis Patients Treated with Remicade@ (infliximab) or Simponi@ (golimumab)-MSD. University of Rome "Tor Vergata".

- May 2014-active: Protocol n. IT-14-01-QUASAR (Fase IV) longitudinal epidemiologic study)- Abbvie. University of Rome Tor Vergata.

- October 2015-June 2016: Protocol n. M13-741 (Fase IIA) evaluating the safety, efficacy, and pharmacodynamic effects of ABT-981 in patients with knee osteoarthritis – Abbvie. University of Rome Tor Vergata.

- October 2015-active: Protocol n. 039-00-PREDICT (Fase IV) Achieving minimal disease activity and predictors of clinical response in patients with psoriatic arthritis treated with golimumab in clinical practice: a multicenter observational study (multicenter, prospective, observational study) - MSD. University of Rome Tor Vergata.

- September 2016-active: Protocol n. 10715 (Fase IV) Studio LOOP (Indagine epidemiologica, trasversale, internazionale su pazienti affetti da Artrite Psoriasica). Abbvie srl, University of Rome Tor Vergata.

- September 2016- active: Protocol n. EMEA-MA/BC/CNT01275PSA4003 (Fase IV) (Indagine epidemiologica, trasversale, internazionale su pazienti affetti da Artrite Psoriasica in trattamento con farmaci biotecnologici). Jansen Pharmaceutical nv, University of Rome Tor Vergata.

- October 2017-active: protocol n. I1F-MC-RHCF (Fase III) (Studio randomizzato, multicentrico per valutare l'efficacia e la sicurezza di ixekizumab verso adalimumab nei pazienti affetti da artrite psoriasica naïve per farmaci DMARDs biologici). Eli Lilly Italia S.p.A., University of Rome Tor Vergata.

- July 2018- active Principal investigator: Protocol n. EMEA-MA/BC/CNT01275PSA4006 (Fase IV) (A Prospective, Observational Study in patients with a newly confirmed diagnosis of Spondyloarthritis (SpA) according to ASAS criteria, naïve to conventional (cDMARDs), targeted (tsDMARDs i.e. apremilast) and biological DMARDs (bDMARDs) – CNT01275PSA4006, SIRENA Study (Spondyloarthritis Italian Registry: Evidence from a National pathway). Jansen Pharmaceutical nv, University of Rome Tor Vergata.

- July 2018- active Principal investigator CHRONOS (CAIN457FIT06) "Effectiveness of biologic treatments for psoriatic arthritis in Italy: an observational longitudinal study of real-life clinical practice" Titolo Italiano "Descrizione della risposta al trattamento con farmaci biologici per l'Artrite Psoriasica in Italia: uno studio osservazionale longitudinale della reale pratica clinica"

- Sept 2020-active Principal investigator: Studio CC-10004-PSA-013 Fase IV (multicentrico randomizzato, doppio cieco, controllato con placebo, a gruppi paralleli per valutare l'efficacia e la sicurezza di apremilast (CC-10004) in soggetti con artrite psoriasica oligoarticolare precoce nonstate trattamento iniziale stabile con FANS e/o < 1 DMARD sintetico convenzionale)

- Dec 2021 Principal investigator for "Studio di fase 4, multicentrico, randomizzato, in doppio cieco, controllato con placebo per valutare l'efficacia e la sicurezza di Guselkumab somministrato per via sottocutanea in soggetti bio-naïve con artrite psoriasica assiale attiva", PROTOCOLLO CNT01959PSA4002

**MUSCULOSKELETAL
ULTRASONOGRAPHY**

Expertise in Musculoskeletal ultrasonography acquired during the following courses:

- U.O.C. di Reumatologia, Servizio di Ecografie, Sapienza University of Rome, Rome, Italy from 2002 to 2006 (Prof. Annamaria Iagnocco)
- Service de Rhumatologie, l'Hôpital Ambroise-Paré, Boulogne Paris France, from 2004 to 2005 (Prof. Maria Antonietta D'Agostino)
- EULAR ultrasonography course, Amsterdam, The Netherlands, June 2006
- Corso di Ecografia muscoloscheletrica at Università degli Studi di Jesi, Italy June 2008 (Prof. Walter Grassi)
- Corso di Ecografia osteoarticolare e muscoloscheletrica at Ospedale Niguarda, Milan Italy, May 2013 (Dr. Oscar Epis)
- SONOMASTER -OMOERACT Ultrasound Initiative January 2023, Rome Italy

ANNEXES**HONOURS AND AWARDS**

- Winner in 2007 of the research-grant of the "Cesare Serono" foundation with a project titled: "Possibile ruolo dell'eterodimero S100A8/S100A9 come marker precoce dell'attività di malattia e come marker precoce del rischio d'insorgenza di Artrite in pazienti affetti da Psoriasi Volgare".
- Winner in 2010 of the grant FIRMA for the scientific work presented at the XLVII National congress of the Società Italiana di Reumatologia titled "il ruolo del sistema del complemento in corso di artrite psoriasica: un indicatore utile nel monitoraggio dell'efficacia della terapia con anti-TNF α ".
- Winner in 2011 of the grant as "best scientific work" presented at the CORA titled "Complement system in psoriatic arthritis: a useful marker and a potential therapeutic target of anti-TNF treatment".
- Winner in 2013 of the grant "SIR Verso l'EULAR"- Travel grant application for the Annual European Congress of Rheumatology EULAR 2014. Title of the research: "evidences of a nontolerogenic-proinflammatory surface and cytokine phenotype in monocytes from patients with psoriatic arthritis".
- Winner in 2015 of the grant "Controversy in Rheumatology and Autoimmunity – CORA 2015". Title of the research: "synovial fluid from rheumatoid arthritis patients modulates the immunophenotype and viability of monocytes".

REVIEWER

Reviewer for "Peer-reviewed" journals as Nature Reviews Rheumatology, Rheumatology (Oxford), Journal of Rheumatology, Clinical rheumatology, Archives of Dermatological Research, Drug development and therapy, DovePress, Clinical Therapeutics, BMC musculoskeletal Disorders, Expert Opinion on biological therapy and PlosOne.

- Details of scientific publications
